

The Social Room — One-Page Marketing Site

"We're not a content agency. We're your personal branding partner."

Timeline: 48 hours from receiving this brief. **Deliverable:** a live, deployed link + a short workflow note.

WHAT YOU'RE BUILDING

The Social Room is an Instagram-first personal-branding agency for founders — strategy first, then script, shoot, edit and grow. It is India-based with ₹ (INR) pricing. **Your task is to build a single-page marketing website whose only job is to get founders to book a free discovery call.**

The positioning line "We're not a content agency. We're your personal branding partner." is locked — it should run through the page and shape the tone. Every section ultimately points the visitor toward one action: **book a call**.

THE TASK

- Build the **13-section one-page site** shown in the wireframe on the next page, following the section order exactly.
- Make it **fully responsive** (desktop, tablet, mobile) with a working sticky navigation and functional "Book a call" CTAs.
- Stay strictly inside the **three-colour brand system** defined below — white dominant, crimson as accent, ink for text.
- The **Process ("How it works") 5-step section is locked to the mockup** — keep the 5-step structure and layout as pictured.
- You may use any framework or plain HTML/CSS/JS — pick what lets you ship a clean, fast result in the time given.

WIREFRAME & REFERENCE

Use the layout below as your blueprint. Left column = the required structure and section order; right column = loose visual reference for the feel of each block (not the exact styling to copy). Match **structure and order**; apply the brand system for the look.

Wireframe — section order (top to bottom)

PAGE STRUCTURE — 13 SECTIONS

#	Section	Notes
1	Announcement bar	Thin greyscale bar at the very top (a shade of Ink). Optional message / small link.
2	Sticky navigation	Logo, nav links, and a persistent “Book a call” CTA. Stays fixed on scroll.
3	Hero	Headline, sub-line, primary “Book a call” CTA. Leads with the positioning line.
4	What we do	Four offerings: Strategy · Scripting · Editing · Podcast.
5	Founder intro	Short founder story / face behind the agency.
6	Clients	Client logos / faces / social proof.
7	Process — “How it works”	5 steps. LOCKED to the mockup — keep the 5-step structure and layout.
8	Pricing	Four tiers (see pricing block below). “Launch” is the recommended / highlighted card.
9	Why — “We already get it”	Reasons to choose them; reinforces the personal-branding-partner angle.
10	Book-a-call band	Full-width call-to-action band driving the discovery call.
11	On the Gram	Instagram tiles / grid of recent posts.
12	FAQ	Accordion of common questions.
13	Footer	Links, socials, contact, and a final “Contact / Next steps” nudge.

PRICING TIERS

1. **Strategy Sprint** — ₹10,000
2. **Foundation** — ₹40,000
3. **Launch** — ₹70,000 (*recommended — highlight this card*)
4. **Authority** — ₹1,50,000

BRAND & COLOUR SYSTEM

The system is **three colours only** — **no cream or ivory**. Greys are shades of Ink, not separate colours. A few derived tones are allowed to give the design depth while staying inside the system.

	Colour	Hex	Where it's used
	Ink	#1C1A17	Text, process cards, footer
	White	#FFFFFF	Dominant background — 80–90% of the page
	Crimson	#990000	Accent only: CTAs, recommended card, sparkle stars, eyebrow pills, one keyword
	Crimson dark	#7A0000	Hover / pressed states
	Hairline	#E4E1DD	Borders / dividers
	Stone	#6B6862	Muted body text
	Tint	#F6F5F4	Very light fill for cards / selected states
	Hero backdrop	#F3F1EE	Graph-paper off-white behind the hero banner

The core rule

White dominates 80–90% of the page. **Crimson is an accent only (10–20%)** — CTAs, the recommended pricing card, sparkle stars, eyebrow pills, and one highlighted keyword. Ink is reserved for text, the process cards, and the footer.

ASSETS & PLACEHOLDERS

- Feel free to use **stock images and media as placeholders** wherever you need them — hero visual, founder photo, client faces, Instagram tiles, etc. Content and copy can be placeholder too; we're assessing build quality, not final copy.
- Keep placeholders on-brand (crop / tone them so they don't break the three-colour system).

WHAT TO SUBMIT

1. A **deployed, viewable link** on any free host (e.g. Vercel, Netlify, GitHub Pages, Cloudflare Pages, Render). The site must load and be clickable from the link.
2. A **short workflow note** covering: your workflow, the tools you used, and the logic behind your key decisions (layout, responsiveness, how you kept to the colour system, any trade-offs made for time).

Optional but welcome: a link to your code repo.

HOW WE'LL EVALUATE

- **Fidelity** — all 13 sections present, in order, matching the wireframe structure.
- **Brand discipline** — strict adherence to the three-colour system and the white-dominant / crimson-accent rule.
- **Responsiveness & polish** — clean layout across screen sizes, working sticky nav and CTAs, thoughtful spacing.
- **Clarity of thinking** — the workflow note shows sound reasoning and good tool choices.
- **Shipping** — you delivered a working live link within 48 hours.

APPENDIX — CONTENT FLOW (SECTION BY SECTION)

This is the intended content for each section — build against it. Copy in quotes is final wording; items marked *Placeholder* still need real content, so use tasteful stubs there and keep the layout ready for the real thing.

01 Announce bar

Ink strip across the very top. Copy: *“Now booking discovery calls for new founders · Book yours →”*

02 Sticky nav

Logo · Home · Services · About Us · Contact Us · kebab menu → Careers, plus a crimson **“Book a call”** button. Stays fixed on scroll.

03 Hero

Founder-photo banner. Headline: **“Your Story, we help you say it.”**

Sub-line: *“You focus on building the business. We’ll build your personal brand, so the right people finally know the founder behind it.”*

A tilted crimson **“Book a call”** button sits over the polaroid.

04 What we do

Four services at a glance — **Strategy · Scripting · Editing · Podcast**, each with a short line.

Ends with *“Explore services in detail →”*.

05 Founder intro

Who’s behind The Social Room: **Annapurna Gupta** (Brand & Content Strategist) and **Shraddha Chetri** (Content Creator).

Placeholder — founder bios.

06 Clients

Social proof — founders / brands they’ve worked with, shown as photos + handles.

Placeholder — client photos & handles.

07 Process — “How it works”

“Five steps. Two hours of your month.”

Five stepped cards: **Discovery call → Strategy → Create → Publish → Grow**. Layout locked to the mockup.

08 Pricing

“Straightforward pricing.”

Four tiers: Strategy Sprint (₹10k, one-time) · Foundation (₹40k) · **Launch (₹70k, Recommended)** · Authority (₹1.5L).

Scope example: *“16 scripts → 16 reel edits”*; expandable scope; fully customizable.

09 Why us — “We already get it”

A reassurance checklist of objections handled, reinforcing the positioning line *“We’re not a content agency. We’re your personal branding partner.”*

10 Book-a-call band

Crimson card CTA — one more nudge to book the free discovery call.

11 On the Gram

Five clickable 9:16 tiles linking to real reels / posts as proof of work.

Placeholder — media + URLs.

12 FAQ

Five-question accordion answering common founder objections — time commitment, what’s included, and so on.

Placeholder — one FAQ answer.

13 Footer

Ink block: logo, nav links, contact (email / IG / LinkedIn), Careers.

Placeholder — real links.

The narrative arc

Hook (hero) → what you get (services) → who we are (founders + clients) → how it works (process) → what it costs (pricing) → why trust us (why us + proof) → act now (book band, gram, FAQ) → close (footer). **Every section funnels toward one goal: booking the discovery call.**

Ship something real and clickable over something perfect and unfinished. Good luck.
